

# **AUTOMOTIVE SERVICES TECHNOLOGY**

CRAWFORDSVILLE HIGH SCHOOL - OFF-SITE LOCATION | YEAR 1 & 2 AVAILABLE

The Automotive Services Technology program offers a hands-on approach to learning about the complex systems of an automobile, while also developing communication and social skills needed for any career field. Throughout the program students are exposed to technology for diagnosing repairs on vehicles, conduct repairs on "live" vehicles, and complete the entire service process.

**Automotive Services Technology leads to these jobs:**

- Automotive Diagnostician
- Automotive Technician
- Auto Shop Owner
- Mobile Electronics Installer
- Service Writer

**Enroll in the Automotive Services Technology program today to get a start on building your future!**
